DETAILED ACTION

Response to Arguments

1. The examiner hereby withdraws the election/restriction requirement, which was in error, mailed on August 27, 2001 (Paper No. 6). However there is a new election/restriction requirement as discussed below.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-27, drawn to a semiconductor device, classified in class 257, subclass 347.
 - II. Claims 28-63, drawn to a method for fabricating a semiconductor device, classified in class 438, subclass 149.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the method of forming the conductive layer (A) could be done by CVD.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2826

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin Quinto whose telephone number is (703) 306-5688. The examiner can normally be reached on M-F 8AM-5PM.
